The details of the DPA are to be negotiated between CBPSD and the Customer and may consider several factors, including but not limited to the following: CBPSD DPP written policy (customer can request a copy), amount of the bill, payment history, time the debt has been outstanding, reasons why the debt has been outstanding, whether there was an adjustment to the bill for a leak, and any other relevant factors; provided that the Agreement requires payment of the current bill plus a specific amount per month on the arrearage (assuming the customer continue water service).

It is the responsibility of the Customer(s) to inform CBPSD (and to substantiate the same) if the Customer(s) financial conditions significantly changes and the existing payment agreement results in hardship, CBPSD may renegotiate the DPA only after the customer provides written documentation in support of their claim that their financial condition has changed. However, during this time, the customer must continue to pay their current bill in full and on time and make some payment on the delinquency.

If termination of water service occurs, the entire past due balance will be due and payable to CBPSD. In addition, a reconnection as well as a security deposit may be required prior to the restoration of water service.
